

Nokia Lumia 520

Don't compromise on productivity

Work hard on the only mobile operating system on the market that has built-in Microsoft® Office.

Save documents automatically with SkyDrive and open them where you left off from any device.

With driving, walking, and public transportation route information built in, Nokia Maps gives you everything you need to explore with confidence and find your way around town all in one convenient place.

Get content 4x faster and use up to 30% less data than competitors' phones. Internet Explorer 10 for Windows® Phone also keeps you safe from online predators and hackers with alerts for phishing activities.

- Windows® Phone 8 OS
- 1.0 GHz dual-core Snapdragon™ S4 processor
- 4.0 inch WVGA display
- 5MP camera
